Benefits

- High-end, “one sheet fits all” paper is perfect for offices with multiple machines and tasks
- Great for correspondence where quality look and feel are required
- High opacity and superior brightness allows 2-sided copying and printing
- Improved smoothness for better print quality in office equipment
- Engineered for use in all printers, copiers, and fax machines

Applications

- Memos, reports, faxes, e-mails, and other documents look their best
- Customer correspondence such as newsletters, flyers, manuals, and instruction booklets
